EDUCATION

- **Bachelor of Science (Computer Science)**
Rajamangala University of Technology
Suvarnabhumi, Hantra Campus
2016 - 2019
- **Vocational Certificate in Information Technology**
Phra Nakhon Si Ayutthaya Technical College
2013 - 2016

TECHNICAL SKILLS

- **PROGRAMMING LANGUAGES**

Javascript, Typescript, Go (Basic), SQL, HTML, CSS, SCSS

- **FRONTEND**

Vue.js, Angular

- **BACKEND**

Node.js, Express.js, NestJS

- **DATABASE**

Microsoft SQL Server, MongoDB, MySQL

- **ORM**

Prisma

- **CLOUD & DEVOPS**

Docker, Google Cloud Platform (Cloud Run, Cloud SQL, Cloud Storage), Git, GitHub Actions, GitLab CI/CD

- **TOOLS**

VSCode, Postman, Figma

- **CURRENTLY LEARNING**

React, PostgreSQL, GraphQL

LANGUAGES

- Thai, English

PROFESSIONAL SUMMARY

Software Developer with 7+ years of experience, including 5+ years focused on backend development using the Node.js ecosystem (Express.js, NestJS, TypeScript).

I design and develop REST APIs, databases and business logic for production systems, with a strong focus on performance, stability and maintainability. I also have full-stack development experience, working across frontend and backend development and deploying production applications to Google Cloud Platform (Cloud Run, Cloud SQL, Cloud Storage) using Docker.

WORK EXPERIENCE

PROGRAMMER (BACKEND DEVELOPMENT)

Auto Fast Co., Ltd

2021 - Present

- Designed system architecture and flow diagrams, and collaborated with frontend developers on end-to-end system development.
- Analyzed and designed REST APIs, databases, and business logic.
- Developed backend services and performed API testing.
- Implemented CI/CD pipelines and deployed applications to Google Cloud using Docker.
- Maintained production systems, troubleshoot issues, and optimized software performance after deployment.

PROJECT

- **Automotive Service Center (POS):** Managed customers, vehicle information, products and inventory, purchase orders, goods receiving, work orders, reporting (Excel, PDF), and dashboards.
- **Pricelist Management:** Implemented multi-level price approval workflows with email notifications and price data export.
- **E-Learning:** Implemented authentication via SMS/Email OTP, training video playback, exam result recording, ranking calculation, and access control management.

SOFTWARE DEVELOPER

Cyber Advance System and Network Co., Ltd 2019 - 2021

- Analyzed and designed systems using Microservice Architecture.
- Developed full-stack web applications by designing REST APIs with Node.js and developing user interfaces with Angular.
- Designed and managed NoSQL databases using MongoDB.

FREELANCE PROJECT

Transport Management POS

- Analyzed customer requirements and business needs, and collaborated with the team to design the overall frontend and backend system architecture using Figma.
- Developed backend services using NestJS and managed the database using Prisma.
- Implemented CI/CD pipelines with Gitlab CI/CD and deployed applications to Google Cloud using Docker.
- Utilized Google Cloud Run, Cloud SQL, and Cloud Storage.
- Delivered the system to the customer for production use according to the agreed scope.
